Ingredients:

2 teaspoons butter
2 cups raw corn kernels
salt and pepper to taste
1 tablespoon honey
a pinch of ground chipotle pepper (optional but good)

Instructions:

In a small nonstick skillet melt the butter. When it starts to “talk” to you stir in the corn and sauté for 3 to 5 minutes, until it looks cooked. Stir in the salt and pepper, followed by the honey and chipotle (if desired).

Serves 2 to 4, depending on what else is being eaten.
